Product Manager (APM) | Technical Strategy, Product Engineering & Human-Centered AI

Education

University of California, Berkeley — Berkeley, CA

B.A. Data Science (Cognition Emphasis) | Berkeley Certificate in Design Innovation (In Progress) — *Expected May 2027*

- **Relevant Coursework:** UI Design (CS 160), Game Theory (Econ 110), Bio-Inspired Design (IB 130), Data Mining & Analytics (Data 144), Data Engineering (Data 101), Data Structures (CS 61B), Probability & Statistics (Data 140).

Skills & Core Competencies

Product Strategy & Discovery: Product Requirements (PRD), User Research, Feature Prioritization, Growth Analytics, Stakeholder Management, CPG Supply Chain Strategy
Design & Execution: Figma Prototyping, Wireframing, User Journey Mapping, WCAG Accessibility, Agile/Scrum, Product Lifecycle Management
Technical Foundation: Python, SQL, REST APIs, Next.js, React, Node.js, Decision Trees, Statistical Modeling, Git

Product & Strategy Experience

FEED (Food, Equity, Entrepreneurship, & Development) — Berkeley, CA

Associate Strategy Consultant – Lotus Foods Project — *Sep 2026 – Present*

- **Developing a state-level EPR Compliance Framework** for Lotus Foods leadership to analyze tax regulations and plastic reduction targets across CPG supply chains.
- **Designing a standardized packaging reporting tool** to streamline multi-material disclosures across state programs and identify LCA-based tax exemptions.

Legali AI — Berkeley, CA

Software Engineering Intern — *May 2026 – Aug 2026*

- **Accelerated user onboarding for 1,200+ active quarterly users** by designing and shipping 3 core platform features across 6 production pages using Next.js, React, and Node.js.
- **Expanded platform global accessibility to 1,500 total users** by engineering an interactive 12-question quiz supporting 7 localized languages and multi-step state management in compliance with WCAG accessibility standards.
- **Increased deployment velocity and codebase stability across 3 repositories** by testing REST API endpoints, diagnosing build failures, and merging 10+ PRs in Git following strict SDLC standards.

PwC & Center for Youth Justice — Berkeley, CA

Data Analytics Consultant (Extern) — *Jun 2026 – Aug 2026*

- **Delivered actionable facility climate insights to stakeholders** by building Python (Pandas) pipelines in Google Colab to clean and aggregate raw multi-file survey CSVs across 162 facility-periods under strict privacy standards.
- **Engineered statistical OLS regression models** to evaluate youth vs. staff trust dynamics (R-squared = 0.129, p ¡ 0.001), controlling for multi-file linkage, ecological fallacy, and self-report bias to synthesize practitioner briefs.

UC Berkeley Haas School of Business — Berkeley, CA

Data Analytics Research Apprentice — *Jan 2026 – May 2026*

- **Accelerated research reporting deadlines by 4 weeks** by engineering automated Python (Pandas) ETL workflows to ingest, clean, and consolidate raw multi-sheet Excel datasets tracking women's health product trials.
- **Prepared regression-ready research datasets across 106 meeting locations** by structuring control vs. treatment variables, geographic district dummies across 7 taluks, and quantitative conversion metrics.
- **Improved dataset integrity and stakeholder decision-making** by auditing 1,200+ participant records to flag operational anomalies (attendance mismatches, trial returns) and synthesizing key findings into executive slide decks for lead researchers.

Featured Product Projects

FedUp: Real-Time Preference Engine & Social Voting App | *Figma, Next.js, Claude API, Redis* — Personal Project

- **Designed and launched an interactive group decision tool** utilizing Google Places and Claude APIs to eliminate choice paralysis, integrating real-time polling workflows for multi-user coordination.

NutriPath: Clinical Meal Planning Product Concept | *Python, RAG Architecture, UX Research* — Personal Project

- **Defined product requirements and clinical workflows** translating complex dietary guidelines into real-time personalized meal plans, achieving 90% top-3 recommendation relevance.

Leadership & Community

Society of Women Engineers (SWE) — Berkeley, CA

Evening with Industry Committee Officer — *Aug 2025 – Present*

- **Engineered Berkeley's premier technical networking conference for 100+ student attendees** by leading corporate sponsorship outreach and event logistics across 15–20 partner companies.

UC Berkeley Rec Well — Berkeley, CA

FitStaff Operations Lead — *May 2024 – Present*

- **Maintained seamless daily operations across a high-traffic campus facility** by managing team workflows, shift schedules, and real-time incident resolution for 2.5+ years.
