Technical Product Manager | AI/ML & Health Data Products

EDUCATION

University of California, Berkeley Berkeley, CA
B.A. Data Science (Public Health Emphasis) Expected May 2027
Berkeley Certificate in Design Innovation (In Progress) | SCET Certificate in Entrepreneurship & Technology (In Progress)

- **Relevant Coursework:** Human Centered Design, Data Structures and Algorithms, Probability and Stats, Data Visualizations, Data Mining & Analytics, Data Engineering, Health Economics, Global Health

SKILLS

- **Product Management:** Feature Prioritization, User Research, Stakeholder Management
- **Design & Discovery:** Figma Prototyping, Wireframing, User Journey Mapping, WCAG Accessibility
- **Data & AI:** Python (Pandas, NumPy), SQL, Machine Learning, Regression Analysis (OLS), LLM APIs (Claude)
- **Engineering:** JavaScript, Next.js, React, Node.js, REST APIs, Git

EXPERIENCE

Associate Strategy Consultant Sep 2026 – Present
FEED (Food, Equity, Entrepreneurship, & Development) – Lotus Foods Berkeley, CA

- Developing a state-level **EPR compliance framework** for Lotus Foods leadership spanning **8 states** (team scope), owning **all of Oregon's** EPR research to analyze tax regulations and plastic-reduction targets across CPG supply chains.
- Researching state EPR requirements to inform a standardized packaging reporting approach for multi-material disclosures, with a focus on **LCA-based** tax exemptions.

Software Engineering Intern May 2026 – Aug 2026
Legali AI Berkeley, CA

- Translated Figma designs into **6 production pages** and **3 core platform features** for a platform with **1,200+ quarterly active users**, using **Next.js, React, and Node.js**.
- Built an interactive **12-question quiz** in **7 languages**, with multi-step state management meeting **WCAG** standards, for a platform with **1,500 users**.
- Supported reliable releases across **3 repositories** by testing **REST API** endpoints, diagnosing build failures, merging **10+ PRs**, and deploying to production.

Data Analytics Research Apprentice Jan 2026 – May 2026
UC Berkeley Haas School of Business (URAP) – Women's Health Nonprofit, India Berkeley, CA

- Accelerated research reporting by **4 weeks** with automated **Python (Pandas)** ETL workflows that consolidated raw multi-sheet datasets from women's health product trials.
- Delivered regression-ready datasets across **106 meeting locations** by structuring control vs. treatment variables, auditing **1,200+ participant records** for anomalies, and presenting findings to lead researchers.

Health Economics Research Assistant Jan 2025 – Jan 2026
Nicholas C. Petris Center for Health Care Markets and Consumer Welfare – PI: Prof. Brent Fulton Berkeley, CA

- Analyzed **physician ROI models** and **prior authorization structures** for **Hepatitis C vaccines**, quantifying cost-reimbursement dynamics and financial barriers to care.
- Evaluated economic policy metrics and healthcare financing to quantify market incentives affecting healthcare accessibility.

Undergraduate Research Assistant May 2024 – Sep 2025
UC Berkeley – Conolly Lab (Prof. Steven Conolly) & Tikhomirov Lab (Prof. Grigory Tikhomirov, Aug–Dec 2024) Berkeley, CA

- Synthesized and analyzed **superferromagnetic iron oxide nanoparticles** as biocompatible tracers for **Magnetic Particle Imaging (MPI)**, optimizing **in vivo** resolution by varying oxidation times in a **metal bath** and testing with **AWR** scans.
- Researched **DNA origami** wrapping of nanocrystals for better resolution and **dopamine aptamer** binding for potential biotech use; performed **electrophoresis** on nanoparticles.

FEATURED PRODUCT PROJECTS

FedUp: Real-Time Preference Engine & Social Voting App *Figma, Next.js, Claude API, Redis*
Personal Project

- Built and launched a group restaurant-decision app after identifying that group search for Berkeley restaurants is slow and inefficient, now used by **30+ users**, using **Google Places API**, **Claude API**, and real-time multi-user polling.

LEADERSHIP & COMMUNITY

Society of Women Engineers (SWE) Berkeley, CA
Evening with Industry Committee Officer Aug 2025 – Present

- Led corporate sponsorship outreach and logistics across **15–20 partner companies** for Berkeley's flagship technical networking conference (**60+ attendees**).

UC Berkeley Rec Well Berkeley, CA
FitStaff Operations Lead May 2024 – Present

- Lead **2–3 staff per shift** at a high-traffic campus facility, overseeing opening and closing, responding to on-site injuries, and resolving patron issues to keep operations running smoothly (**2.5+ years**).
